In re Application of Zupanick et al.

Appl.No.: 10/003,917 Filed: November 1, 2001

For: METHOD AND SYSTEM FOR SURFACE

PRODUCTION OF GAS FROM A

SUBTERRANEAN ZONE

**DECISION ON PETITION** 

**UNDER 37 CFR 1.59** 

This is a decision on the petition under 37 CFR 1.59(b), filed January 18, 2008, to expunge information from the above identified application.

## The petition is **GRANTED**.

Petitioner requests that the court documents from the CNX Gas Corporation vs. CDX Gas, LLC, Civil Action No. 05-1574, filed January 18, 2008, be expunged from the record. Petitioner states that either (A) that the information contains trade secret material, proprietary material and/or material that is subject to a protective order which has not been made public; or (B) that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted, and the information has not otherwise been made public. The petition fee set forth in 37 CFR 1.17(g) has been paid.

The information in question has been determined by the undersigned to not be material to the examination of the instant application.

The requested material has been expunged. However, the material will not be returned to the applicants. The obligation to return documents was removed from 37 CFR 1.59 in 2003 (June 30, 2003 Fed Register, Vol. 68, No. 125, 38613). The documents have been closed from the IFW record so as not to be viewable by non-PTO personnel.

Applicant is required to retain the expunged material(s) for the life of any patent which issues on the above-identified application.

Frederick Schmidt, Director Patent Technology Center 3600
